Let's talk about product technology

- 1 - Three Layer Construction
- 2 - Galvanized Steel Caping
- 3 - Insulation with thermal break with polyurethane injected
- 4 - Galvanized Steel Caping

At Motion Garage Doors, we build for comfort, efficiency, and lasting value. Our Canadian Series triple-layer doors feature premium insulation for year-round temperature control, reduced noise, and enhanced durability. A thermal seal and protective coating ensure superior performance in any weather.

Choose from a wide range of materials, windows, hardware, colours, and features — every detail matters. Let's create a garage door that truly fits your home.
